

Building Connections That Last a Lifetime

Our Rising Stars Program provides young adults ages 16-24 with **career navigation**, **mentorship** and **industry exposure** to sustainable careers within the construction industry.

A nationally renowned program, Rising Stars is offered in six cities across the U.S. and continues to expand.

- Boston, Massachusetts
- Brockton, Massachusetts
- Brooklyn, New York
- Charlotte, North Carolina
- Cleveland, Ohio
- Newark, New Jersey

By attending educational seminars and participating in hands-on training led by industry professionals, students have the opportunity to be exposed to many specialties within construction, such as:

- Trades
- Safety
- Building science
- Architecture
- Sustainability
- Project management

The Rising Stars Program bridges the gap between the construction industry and the next generation of skilled workers through training, exposure and pathways to employment.
